EDUCATION

B V Raju Institute of Technology, Narsapur

Bachelor of Technology in Computer Science and Engineering (CGPA: 8.14)

Telangana, India

Aug. 2024 – May 2028

TECHNICAL SKILLS

Languages: Java, Python, C, SQL, JavaScript

Core CS / Concepts: Data Structures and Algorithms (DSA)

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Firebase

Databases: Firebase Firestore, SQL

AI/ML: Gemini API, GitHub API Integration, Prompt Engineering

Tools: Git, GitHub, VS Code, Docker, Vercel

PROJECTS

HackBridge | *Full-Stack AI Platform*

Feb 2026 – jun 2026

React, Node.js, Express, TypeScript, Firebase | *Fireworks AI*

- Architected and developed a full-stack hackathon team formation platform using a decoupled architecture, splitting the system into a high-performance frontend client and a secure, dedicated backend API microservice.
- Integrated high-dimensional semantic vector indexing utilizing Fireworks AI embedding models, enabling intelligent, context-aware developer skill matching and automated team requirement analysis from project pitches.
- Engineered a seamless, secure data pipeline linking a distributed Firebase relational architecture with server-side processing, utilizing advanced environment security standards to handle master operational credentials safely.
- Deployed the infrastructure across a hybrid cloud environment, leveraging Content Delivery Networks (CDNs) for static frontend hosting and configuring automated CI/CD build pipelines on cloud server instances to handle heavy computational workloads with low latency.

LEADERSHIP & PROGRAMS

GirlScript Summer of Code (GSSOC) 2026

Apr 2026 – present

Contributor – Open Source & AI/Agents Track

- Contributed to open-source projects as part of the AI/Agents Track.

Infosys Springboard Pragati: Path to Future

Feb 2026 – Apr 2026

Cohort 8 Participant

- Selected for the 100-day intensive learning program focused on technical and professional development.
